We will focus on developing thoughts and attitudes that are beneficial to us and are in alignment with creating the lives we want. The class will then meet on Saturday morning for a field session to practice these techniques. The field session will be followed by an evening class session the following week for feedback of the students' work. Please bring your camera and camera manual to the first class. ## Better Balance using Traditional Exercise & Awareness Through Movement®

Balance is a crucial but often overlooked component of fitness. The "Better Balance" class is designed to enhance these key elements of good balance: leg strength, and overall flexibility and coordination. Each class combines both traditional exercises and an Awareness Through Movement (ATM) lesson. Traditional exercises include leg strength basics for hips, knees, ankles, and feet, and coordination and flexibility exercises for the lower body. ATM uses gentle, slow movements and focused attention to sensory feedback. The combination of directed focus and unfamiliar movements results in improved agility and coordination, enhanced flexibility, easier movement and improved sensory awareness. Classes will include exercises done while standing, sitting in a chair, and while lying on the floor (blankets provided for floor work). Dress comfortably for non-aerobic exercise and wear supportive, closed toe, flat soled shoes. Handouts are included so you can practice the exercises and techniques on your own for maximum benefit. If you would like more information, contact Carla Rock, physical therapist, Guild Certified Feldenkrais Practitioner, at 491-4375, [Carla.Rock@comcast.net](mailto:Carla.Rock@comcast.net).

## Dao Yin Yang Sheng Gong

Dao Yin Yang Sheng Gong is a practice of exercise, meditation, self-healing, and self-defense with roots in ancient China. It is a combination of flowing movements and deep breathing techniques with repetition that lead to better mobility and balance. Call Nancy VanDoren at 296-7602 for more information.

**Beginning Forty-Nine Movements** – Learn to control breathing, calm the mind, and stimulate specific acupuncture points in the body using slow, smooth movements that were developed to help prevent illness and promote overall health.

**Continuing Forty-Nine Movements** – For those students who have already taken the initial Forty-Nine Movements, these sessions focus on continued practice of the techniques.

**Ba Duan Jin or 8 Pieces of Brocade** – A good beginner class that consists of eight moves or stretches and a great warm up callisthenic prior to other exercise routines. Focus is on controlled breathing techniques and slow stretches.

**Yang Sheng Taiji Gong II** – Eight simplified moves that are easy to learn and quite similar to other Dao Yin movements which can be practiced in almost any setting.

**Dao Yin Dance** – An accumulation of movements from a variety of specific exercises combined into a short “dance” involving slow, circular movements with breathing techniques to promote health. For the intermediate or advanced student who has studied any type of Tai Chi or Qi Gong.

**Yang Sheng Sword** – Using a sword as a focus point, this Qi Gong exercise promotes an increased range of motion and balance through movements. This exercise is based on self-defense techniques. Sword motions and deep breathing stimulate acupuncture points. For intermediate & advanced students. Dao Yin Dance is a good course to prepare for this class and is recommended.

**Health Preserving Exercises of Emperor Qian Long** – As the name implies this is a health maintenance exercise. It works to improve flexibility and mobility through repetitive movements as well as massage specific acupuncture points to stimulate health and well being.

## Ladies Ballroom Dance Fitness & Technique Class

Dancing is such great exercise! In this class, designed for ladies, our primary focus will be to improve technique in the Ballroom and Latin Dances. We will concentrate on isolations (including ribs, hips, and arms), stretches, improving posture, technique, and movement. This will also provide a great way to get some light exercise and toning. This would be a great companion class to the Intermediate and Advanced level dance classes for students who want to develop their technique, as well as a great class for those who may not have a regular dance partner, but would like more confidence with dance and movement. But all levels are welcome. Dress in clothes you will feel comfortable moving in.

## ***Fine Print: Things You Should Know.....***

### **Register Early!**

Registering early helps us do a better job of serving you by preparing programs for the proper amount of participants. Most of our programs have a limit on the number of participants. We depend on your participation for a successful class. Early registration allows us to schedule the necessary sessions, add instructors when needed, and prepare supplies and materials.

### **Facility Reservations**

The group and contact person listed on the rental confirmations are responsible for all damages to City of West Lafayette property or equipment and for full compliance with the Department's rules and regulations. Failure to completely follow the rules and regulations may result in immediate suspension of the activity in the facility and the forfeiture of future facility rental privileges.

### **Supply Lists**

Some of our classes require a supply list. Supplies should not be purchased until four business days prior the start of class. Most classes have a minimum number of registrants required to hold the class.

### **No Receipts Mailed**

No confirmations will be sent. Assume you are registered unless you are notified. If you need a receipt, send along a self addressed stamped envelope.

### **Questions??? Call us....**

**City Hall office - 775-5110**

**Morton Center - 775-5120**

### **Refund Policy**

If we cancel a class, all fees will be refunded.

If you cancel at least two business days prior to the start of class, you may receive a refund less a \$5.00 processing fee.

Because decisions to maintain classes are based on enrollment, no refunds will be granted within two business days of the first class.

Refund claims will be processed at the next regularly scheduled City Board meeting. Refund checks will be mailed.

### **Instructors -**

Our instructors are independent contractors. The curriculum is determined by the instructor.
